

OUR SPECIAL EXHIBITIONS

HEARTBEATS. BEGINNING AND FAREWELL March 15 - December 27, 2026

Whether it's one's own birth, the birth of a child, the death of a loved one, or the end of one's own life – beginnings and farewells affect us all. This exhibition explores how perspectives, customs, and professions related to these key life events have changed over time – and what has remained. As visitors view exhibits such as a midwife's bag or a funeral carriage, they are invited to discover connections between the start and end of life. The exhibition encourages reflection – on the familiar and the unfamiliar, on memories and new perspectives.

EVERYDAY LIFE THROUGH THE LENS. OUR PHOTOS April 12 - December 27, 2026

For more than 150 years, photography has accompanied our lives. Photos capture people at work and at leisure, reflect social roles, and document everyday life. But photographs are more than memories – they are historical sources. This exhibition presents selected images from the collections of the Hessenpark Open-Air Museum, ranging from candid snapshots to formal family portraits. It reveals how people stage their world – and what remains unseen in the image. Photographs never show everything. They are fragments, shaped by technology and perspective. The exhibition invites visitors to reflect – to remember, and to discover new perspectives on everyday culture.
