HESSENPARK OPEN AIR MUSEUM

WHAT'S ON IN 2022

MARCH TO DECEMBER

www.hessenpark.de

HOUSES AND THE STORIES THEY TELL

The 65-hectare museum grounds are home to over 100 timber-framed buildings spanning five centuries. Each building invites you to discover the everyday history of our ancestors, with new attractions added every year. For example, have you seen our new permanent exhibition in Haus Heck about the lives of a carpenter's family around 1840? Or maybe the freshly renovated Storehouse from Trendelburg?

Our new special exhibition “**Inside Hesse's Attic. Collectables or Junk?**” is set to open its doors in April, offering visitors an insight into the diversity of the museum collection and its scientific processing.

This year's programme of events includes old favourites such as the Plant Markets and the Harvest Festival. In addition, there are a range of new themed events to keep interest in the Hessenpark alive.

Programme subject to change due to the ongoing pandemic. Please see our website for the latest information.
