## HESSENPARK OPEN AIR MUSEUM

# WHAT'S ON IN 2023

MARCH TO DECEMBER

[www.hessenpark.de](http://www.hessenpark.de)

## HOUSES AND THE STORIES THEY TELL

The 65-hectare museum grounds are home to over 100 timber-framed buildings. Spanning five centuries, each building invites you to discover the everyday history of times gone by. New attractions are added every year. Have you seen the exhibition **“Living Diversity”** in the Fortified House from Ransbach?

Or the new features on the Forest Adventure Trail? You will find the opening times of the buildings in our newsletter, on our Facebook page and on Instagram. From March onwards, the new special exhibition **“Cloudy and Clear. Our Daily Water.”** will be on show, focusing on how we deal with the vital resource of water.

From April, the **“Especially Everyday!”** exhibition in the House from Gemünden (Wohra) will focus on the transfer of the Hessian State Museum Darmstadt's collection to the Hessenpark Open Air Museum. This year's programme of events includes old favourites such as the Plant markets and the Harvest Festival. In addition, there is a range of new, themed events to pique everyone's interest in the Hessenpark.

## HESSENPARK OPEN AIR MUSEUM OFFERS

- ✓ Guided tours with different focuses and in a choice of languages
- ✓ On request: tours outside of normal opening hours
